

# GREAT TO SEE YOU!

We work with great pleasure and dedication in our orchard and enjoy showing you the results that can come from working together with nature.

For the 5 months of fruitproduction we are committed 12 months a year. Every piece of fruit counts.

Our orchade is biodynamic certified.

To remain working in this manner and to give as many people as possible the opportunity to enjoy our orchard, we have a few ground rules we would like you to follow. We therefore trust that you will cooperate with us in holding to them.

Thank you and enjoy.

you can pick in the rows with the yellow flags with 'PLUKKEN? JA!' printed on them.

The picked fruit can be paid for at the checkout in the shop.

The advantage of picking your own fruit is that you can taste what you are going to buy, but remember how many pieces you tasted as we will ask you at the checkout where you also pay for the tasted fruits.

Only ripe fruit may be picked, it will not mature after picking.

- black berries - deep black ● red currants - full bunch, deep red
- white currants - golden ● cherries - purple or deep red
- raspberries - if they come off easily

A couple of exceptions: pears and kiwi berries can be picked in the rows marked by a yellow flag when they are not ripe. These will keep maturing after picking.

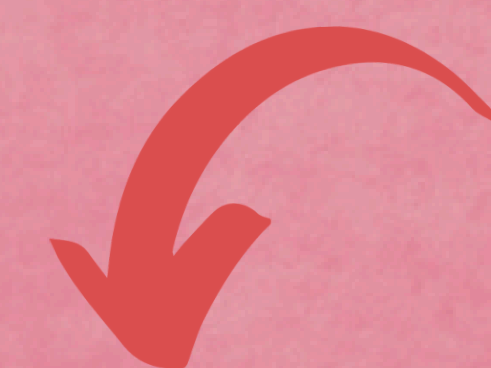

The vegetables in our orchard can only be harvested by members of Pluk!. More information can be found at [www.plukcsa.nl](http://www.plukcsa.nl). Potatoes under the fruit bushes can be harvested when indicated.

## THESE ARE THE PRICES OF THE FRUITS IN OUR ORCHARD

cherries	€ 1,30 per 100 g
berries	€ 1,10 per 100 g
raspberries	€ 1,10 per 100 g
